Jun 2019 - Jul 2019

### **Industrial Technology**

Arkademy Pijar Camp

Embark on an intensive 1.5-month Bootcamp Trainee Program designed to immerse you in the world of application and website development using React Native and Express.js. This meticulously structured program aims to equip you with the essential skills and hands-on experience needed to excel in the tech industry.

Jun 2016 - Jun 2019

SMKN 2 BOGOR

Computer & Network Engineering

## **PERSONAL STATEMENT**

I am a front-end developer with over 4 years of experience in the tech industry. Currently, I am using NextJS in my project and also have a understanding of other technologies such as React, React Native, and Angular. In addition, I am also currently learning other technologies such as Android Kotlin and Flutter.

I have the ability to work as part of a team or independently as needed for project requirements and am continuously learning new technologies to continually improve my skills.

I believe that with the skills I possess, I can make valuable contributions to the company I work for and continue to develop myself in this field.

## **SKILLS**

- NextJs
- React Native
- React JS

- Angular
- Typescript
- Android Development

## CERTIFICATIONS AND LICENSES

Mar 2024	<b>Cloud Practitioner Essentials (Belajar Dasar AWS Cloud)</b> Dicoding Indonesia
Dec 2022	<b>Belajar Fundamental Aplikasi Android</b> Dicoding Indonesia
Apr 2022	<b>Pemrograman Kotlin : Pemula sampai Mahir</b> Udemy
Apr 2022	<b>Belajar Prinsip Pemrograman SOLID</b> Dicoding Academy
Aug 2019	<b>Certificate of Graduation - Full Stack Software Developer</b> Pijar Camp
